PROFILE SUMMARY

Performance-driven undergraduate dedicated to exceeding assigned goals and objectives. Combines technical proficiency in enterprise networking and development with proven Presidential-level leadership and large-scale event management experience. Seeking a professional internship to apply analytical skills and a competitive background in CTF hacking to a security or technology team.

EDUCATION

Asia Pacific University Of Technology & Innovation (Malaysia) /

Jun 2024 - Present

De Montfort University (UK) Dual Degree

Bachelor of Science (Hons) in Computer Science (Cyber Security)

- CGPA: 3.86 | Vice Chancellor's (VC) List for Academic Excellence 2025

UNIVERSITY PROJECTS

DEVELOPMENT & LANGUAGES

Software Application Development (Python, Java, C#)

- Developed multi-role management systems for Medical Clinics and Restaurants, featuring GUI-based appointment booking, payment processing, and receipt generation.
- Applied Object-Oriented Programming (OOP) and MVC-like architectures to ensure code maintainability and persistent data storage.
- Collaborated in a team to build a Library Management System with modules for user authentication and administrative processing

Database Systems (PostgreSQL)

- Designed and modeled relational databases for Hotel Operations, implementing complex SQL queries for CRUD operations and reporting.

NETWORKING

Enterprise Network Design & Configuration (Cisco Packet Tracer)

- Designed and configured a full enterprise network with VLANs, OSPF routing, DHCPv4, WLAN (WLC), HSRP, EtherChannel, and Layer-2 security mechanisms.

FORENSICS

Memory Forensics Analysis (Volatility Workbench)

- Performed a forensic investigation on an infected Windows 10 VM to identify malicious activity.
- Analyzed registry hives, network artifacts, and rogue binaries to uncover persistence mechanisms.

***Technical Skills:** Python, C#, Java, SQL, HTML/CSS; Wireshark, Kali Linux, Volatility, Burp Suite, OSINT Tools

COMPETITIONS

CTF & Hackathon Participation

- SUNCTF 2025 — 13th place out of 81 teams (Open Category)
- LECTURE'S OVER, TIME TO HACK!!! CTF 2025 — 14th place
- Internal CTF Competition 2025 — Participant
- The Great AI Hackathon 2025 — ASEAN Official Recognition (Participation)
